SOCIAL AWARENESS 'SKIT' ON HEPATITIS

Date: 28/07/2019

No of participants - 40

AIM AND OBJECTIVES

AIM: To arrange a skit play to make students of all the faculties aware of Hepatitis.

OBJECTIVES:

1. To make the students aware of the spread, cause and symptoms of Hepatitis.
2. To make the student understand the importance of hygiene, and sanitation of the area to prevent the spread of infection in the form of playful skits.

Learning outcomes:

- Learning outcomes of workshops for Graduation students are geared towards helping students be aware of the possibilities of deadly infections due to unhygienic conditions. Becoming aware of social accountability and responsibilities.
- The Skit/Drama helps in boosting the confidence of students in public speaking and teamwork.
