27.	CDT. Mansi Raut.	M Raut
28.	CDT. Taniya Shalch.	Taniya

[Faint handwritten notes and signatures on the left margin, including a checkmark]

Presentation of NCC Activities 2018-19
Report on Leprosy Survey

1. Title of the Activity/Event/Practice

Leprosy survey activity

2. Objectives

To raise awareness about leprosy

To spread awareness against the stigma related to it.

To interrupt the transmission of the infection

3. The Context

To reduce the prevalence rate to less than 1/10000 population at sub-national district level. To achieve integrated anti-leprosy services through the general health care system. Early detection and complete treatment of new leprosy cases.

4. The Practice

On 24th September, NCC cadets participated in the leprosy awareness rally organized by the Rural Hospital, Palghar.

5. Outcomes

- NCC cadets can learn about the signs and symptoms of leprosy through the survey
- NCC cadets can develop skills like active listening, asking open-ended questions, and responding empathetically through conducting the survey.
- Increased awareness of social stigma: Leprosy is often associated with social stigma, and people affected by the disease may face discrimination and exclusion. NCC cadets can learn about the challenges faced by people affected by leprosy and become more aware of the need for social inclusion and acceptance.
- Increased empathy and sensitivity: Through conducting the survey and interacting with people affected by leprosy, NCC cadets can develop greater empathy and sensitivity towards those who may have been stigmatized or marginalized. This can help them to become more compassionate leaders and advocates for social justice.
