NCC Activities 2019-20
Report on Awareness of the effects of plastic

1. Title of the Activity/Event/Practice

Awareness of the effects of plastic

2. Objectives of the Practice

- To increase awareness and knowledge about the hazards of plastic.
- To tackle the dependency of plastic.
- To get an alternative to plastic.
- To reduce pollution.

3. The Context

The toxic chemical additives and pollutants found in plastics threaten human health on a global scale. Scientifically proven health effects include causing cancer or changing hormone activity (known as endocrine disruption), which can lead to reproductive, growth, and cognitive impairment.

4. The Practice

The NCC Unit of S.D.S.M College, Palghar conducted a campaign on 11th July on awareness of the ill effects of plastic to help create a pollution and plastic-free environment, as well as to make a pollution-free society successfully.

5. Outcomes

- Cadets learned about their responsibility towards the environment and the impact of their actions on the planet. They learned the importance of reducing plastic waste and promoting sustainable practices.
- Cadets took the lead in promoting awareness campaigns on the ill effects of plastic in their communities.
