Presentation of NCC Activities 2018-19
Report on
Poster Making on Water Conservation Activity on World Water Day

1. Title of the Activity/Event/Practice

Poster Making on Water Conservation Activity on World Water Day

2. Objectives

- 1) To raise awareness about the importance of water and the need to conserve it.
- 2) To promote water-saving technologies such as rainwater harvesting, and drip irrigation.

3. The Context

22nd March World Water Day is celebrated as per the guidelines received from the battalion.

4. The Practice

World Water Day is celebrated on March 22 every year to raise awareness about the importance of freshwater and the need for sustainable management of this vital resource. One of the most pressing issues facing the world today is the shortage of clean and accessible water, which affects millions of people globally. Such a campaign is essential for ensuring that we have enough water literacy about clean water for our daily needs and for preserving our ecosystems. Cadets made posters and went to nearby areas, talked to people, and made them aware of the consumption of water, conservation of water, and practices they adopted for the use of water.

5. Outcomes

The cadets, with the help of posters made, conducted a mass awareness program in the regional language by visiting people in person. They explained the importance of water conservation and ways to reduce wastage.
