The Principal,
Sonopant Dandekar College, Palghar

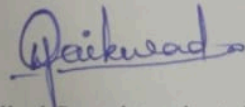

Sub: Participation in Pulse Polio Immunization Programme

It is my pleasure to let you know that the NCC cadets (Boys and Girls) of your college participated in the Pulse Polio Immunisation Programme on 16/06/2019 & 15/09/2019. As desired by RH, Palghar, cadets were sent to the PH and various booths in Palghar, located at different vicinities in Palghar.

Along with the staff of RH the cadets administered oral poliodose to the children and assisted in maintaining the record of the children who took the dose. The cadets also went around the area and brought many children to administer the dose.

Once again I am thankful to you for extending the services to the Nation in small way by involving in the Pulse Polio Immunization Programme. The programme was a grand success due to your sincere efforts and co-operation

Thanking you

Medical Superintendent cl-1,
Rural Hospital, Palghar.
Tal & Dist- Palghar.

NCC Activities 2019-20
Report on Pulse Polio Immunization campaign

1. Title of the Activity/Event/Practice

Pulse Polio Immunization campaign

2. Objectives

- To eliminate Polio from the country.
- To immunize all the children under the age of 5 years.
- To reach children who have missed routine immunization.
- To raise awareness among the underprivileged on the importance of polio drops.

3. The Context

The Pulse Polio campaign is a vaccination program aiming at the elimination of polio. It is a government campaign. As per the schedule of the rural hospital, cadets carried out this immunization practice.

4. The Practice

The officials and medical staff from the rural hospital, Palghar gave guidance to cadets for carrying out this immunization. As per their instructions, cadets gave oral doses of polio to children under the age of 5 years. Cadets went door to door for this campaign and took care that no child left taking doses from the locality they have given. On this occasion chief medical officer Dr. Gavit and his medical staff were present.

5. Outcomes

- Pulse Polio Immunization campaigns have helped increase immunization coverage, ensuring that all children under the age of five receive the polio vaccine.
- Helped raise public awareness about the importance of polio vaccination and the risks associated with the virus. This has helped encourage parents to ensure their children receive the vaccine and promoted the importance of routine immunization.
