Domestic Violence

Domestic violence, also called intimate partner violence, refers to a harmful pattern of behavior where one person in a relationship seeks to exert power and control over the other. This abuse can take various forms, such as physical harm, emotional manipulation, etc. For this reason, we conducted a seminar to spread some awareness related to domestic violence and the main agenda is to know about various laws for domestic violence.

Objective: -

1. Raise awareness and educate individuals about the signs, causes, and consequences of domestic violence to promote prevention and early intervention.
2. Implement support services and resources for victims of domestic violence, including shelters, counseling, and legal assistance, to ensure their safety and well-being

Outcome: -

1. Students will demonstrate an understanding of the dynamics of domestic violence, including power and control dynamics, types of abuse, and its impact on individuals and families.
2. Students will develop skills in recognizing and responding to domestic violence situations, including accessing support services, advocating for victims, and promoting healthy relationships and conflict resolution strategies

Participants:

1. Chief Guest
2. Extension Teacher
3. DLLE students
