Department of Lifelong Learning and Extension (DLLE)

Virtual Code of Conduct

A virtual code of conduct is a set of guidelines that outline expected behaviors and standards for interactions in online or virtual environments. Our agenda behind this seminar is to get familiar with online system ethics and teach to give respectful communication to other people in society.

Objective:

1. Establish clear guidelines and expectations for online behavior, including respect for others, confidentiality, and responsible use of technology.
2. Foster a safe and inclusive virtual environment by addressing issues such as cyberbullying, harassment, and privacy concerns through effective policies and enforcement mechanisms

Outcome:

1. Students will demonstrate the ability to adhere to virtual code of conduct guidelines, including respectful communication, ethical use of digital resources, and maintaining privacy and confidentiality.
2. Students will develop skills in identifying and addressing inappropriate online behavior, such as cyberbullying or harassment, and promoting a positive and inclusive virtual community through effective conflict resolution and digital citizenship practices.

Participants:

1. Chief Guest
2. Extension Teacher
3. DLLE students
