#### b) Remedial Measures for failure and upgrading pass class and second class students

Students who have temporarily fallen behind in their studies or otherwise need short-term support in their learning have the right to get remedial teaching. Remedial teaching should be started immediately when the difficulties in learning or school attendance have been noticed, so that the students would not stay behind permanently in their studies. Remedial teaching can counteract difficulties beforehand. Remedial teaching should be organized according to a plan and as often as is necessary.

#### c) Special Guidance to Challenging Students (I & Distinction)

A positive College climate includes policies and practices that foster school safety for all; promote a supportive academic, disciplinary, and physical environment; and encourage and maintain respectful, trusting, and caring relationships throughout the school community. Research shows that a positive college climate is associated with better academic outcomes (e.g., test scores and graduation rates), greater student engagement, improved risk prevention and health outcomes, and increased teacher retention.
