SYLLABUS

Chapter -1 History and Importance of Floral Design

- Overview of floral design history
- Cultural significance and styles across different regions
- Basic Principles and Elements of Design

Chapter- 2 Essential tools (scissors, floral foam, wires)

- Cutting and conditioning flowers
- Hydration and preservation methods
- Fundamental Arrangements

Chapter- 3 Basic Techniques

- Preparation of Flowers
- Basic vase arrangements
- Simple bouquets and posies
- Introduction to floral foam techniques
- Color Theory in Floral Design
- Understanding color wheel and schemes
- Applying color theory to floral arrangements

Chapter- 4 Intermediate Techniques

- Advanced Arrangements
- Hand-tied bouquets
- Corsages and boutonnières
- Floral crowns and wearable flowers
- Arrangement Styles
- European styles: English garden, French country
- Asian influences: Ikebana principles
- Event-Specific Arrangements

COURSE OBJECTIVES AND LEARNING OUTCOME

Background

Ability to create a variety of floral designs such as wreaths, bouquets, corsages, boutonnieres/'buttonholes', permanent arrangements and other more complicated arrangements is also important. Some shops also stock gift baskets, fruits, and chocolates as well as flowers, whereas some shops will purchase these things only when needed for an order. Floral business is seasonal and is heavily influenced by the following holidays and events: Christmas, Valentine's Day, Administrative Professionals' Day, Mothers' Day, All Souls Day, Advent, Easter, weddings and funerals. [These occasions make up the largest part of the business, with the sale of house plants and home decor being a smaller, but more constant, part. Flowers for personal enjoyment as well as those selected to celebrate birthdays, anniversaries, and get-well wishes are also a significant portion of a florist's business.

The floristry business has a significant market in the corporate and social event world as flowers play a large part in the decor of special events and meetings. Centerpieces, entryways, reception tables, bridal bouquets, wedding chuppahs and stage sets and only a few examples of how flowers are used in the decorations for different occasions.

About Department

The Department of Botany started in 2006 for UG students. For aspirants of higher students, I plant science like plant genetics, Molecular biology, plant biotechnology, plant physiology, plant pathology, plant taxonomy and plant ecology, etc. The department having the botanical garden depository herbarium and Practical lab

Course Aim & Objectives

After completing this chapters, the students will be able to:

- **Identification and storage of seasonal flowers.**
- **Selection and preparation of foliage.**
- **Preparation of bouquets, garlands.**

COURSE EXPECTED OUTCOMES

On completion of the course the student will be able to

- Develop the concept of arranging flowers in an aesthetic manner
- They will learn flower arrangement for different occasions
- They will learn to use flower and foliage effectively.
- Develop the required skills for pursuing a career in this field

DURATION

- Total hours- 35
- Lecture – 35 hours
- Attendance- 75% of attendance is compulsory

ELIGIBILITY AND FEES

- B.Sc. (Life Science) students
- Fees- Rs 500
- Duration – 35 hours

FACULTY

- Prof. B.N. Jaiswal
- Asst. Prof. Asmita P. Raut
- Asst. Prof. Dakshata Patil
- Asst. Prof. Viraj Chabake

REFERENCE BOOK

- Ikebana – The art of arranging flower by SHOZO SATO
