Report on Wall Painting 2019-20

Name of the Event: Wall painting

Date – 09/12/2019

Time- 2.00 p.m.

No. of Students Participated – 34

About the Activity:

DLLE teachers instructed the students where to paint the wall. All students actively participated in college campus wall painting.

Welcome to the Wall Painting Programme, a thriving community project that combines art and activism to repurpose public spaces and promote a feeling of pride and belonging. Our program uses the power of public art to bring color, creativity, and community spirit into our urban landscape, a world too often dominated by steel and concrete.

Objective:

The purpose of wall painting on college property is to improve the environment's aesthetics, instill a feeling of pride and ownership in students, and create a lively, creative environment that encourages learning.

Outcomes:

1. **Artistic Expression and Creativity:** Students involved in wall painting activities will have the opportunity to express their artistic abilities and explore their creativity. They can experiment with different techniques, colors, and themes to create visually appealing and meaningful artwork.

2. Teamwork and Collaboration: Wall painting projects often require teamwork and collaboration among students. They will learn to work together, coordinate their efforts, and contribute their strengths to achieve a common goal. This promotes collaboration, communication, and the development of interpersonal skills.
