

Department of Lifelong Learning and Extension (DLLE)

Activity Name

How to Attend Google Classroom

Google Classroom is an online learning management system designed to streamline the digital classroom experience for educators and students. It enables teachers to create and distribute assignments, provide feedback, and communicate with students in a centralized platform. Our speaker showed the demo of how to attend Google Classroom to DLLE students and gave some valuable important uses of this Google Classroom so the students can access course materials, submit assignments, collaborate with peers, and interact with teachers, fostering a cohesive and efficient virtual learning environment.

Objectives:

1. Familiarization with Google Classroom: To introduce college students to the features and functionalities of Google Classroom, enabling them to navigate and utilize the platform effectively.
2. Remote learning adaptation: To help students adapt to the remote learning environment by providing them with the necessary skills to participate in and engage with Google Classroom.
3. Organization and time management: To promote effective organization and time management skills for students attending online classes through Google Classroom.

Outcomes:

1. Google Classroom navigation: Participants became proficient in navigating the Google Classroom interface, and accessing assignments, announcements, and resources.
2. Online class participation: Participants learned how to actively participate in online classes by joining meetings, responding to discussions, and engaging in virtual learning activities within Google Classroom.
3. Organization and time management skills: Participants developed effective organizational and time management skills to keep track of assignments, due dates, and course materials within Google Classroom.

Participants:

1. Chief Guest
2. Extension Teacher
3. DLLE student
