Online Guest Lecture on "Industrial Location and Industry 4.0"

Date of the event- 28/1/2022

No of students participated -23

Introduction:

The Department of Business Economics hosted an online guest lecture on "Industrial Location and Industry 4.0" to explore the interplay between industrial location decisions and the rise of Industry 4.0 technologies.

Objectives:

1. Highlight the significance of industrial location decisions in the context of Industry 4.0.
2. Examine factors influencing industrial location choices and their impact on economic development.
3. Discuss how Industry 4.0 technologies reshape traditional industrial location concepts.
4. Provide insights into future trends in industrial location and Industry 4.0.

Learning Outcomes:

1. Understanding of industrial location theory and its relevance in economic geography.
2. Awareness of Industry 4.0 technologies and their transformative impact on manufacturing.
3. Analysis of how Industry 4.0 reshapes traditional concepts of industrial location and clustering.
4. Insight into future trends in industrial location and Industry 4.0, aiding in adapting to evolving industrial landscapes.
