EVENT REPORT

Name of the Event – Power Point Presentation for FYBSC-CS students

Date -24-09-18   **Time** -10 AM onwards   **No. of Students Participated** – 60

A PowerPoint presentation on computer science-related topics was organized for (FYBSc-CS) class and following topics have been covered by students.

Introduction to Computer Science:

- Definition of Computer Science

- Importance and relevance in today's world

- Overview of various subfields (e.g., algorithms, data structures, programming languages)

Fundamentals of Programming:

- Introduction to programming languages (e.g., Python, Java, C++)

- Basics of programming logic (variables, data types, control structures)

- Simple code examples to illustrate concepts

Data Structures and Algorithms:

- Explanation of data structures (e.g., arrays, linked lists, stacks, queues)

- Introduction to algorithms and their importance

- Examples of common algorithms (e.g., sorting, searching)

Database Management Systems:

- Definition and purpose of DBMS

- Overview of relational databases

- Introduction to SQL (Structured Query Language)

- Basic database operations (e.g., CRUD operations)

Introduction to Web Development:

- Overview of client-side vs. server-side development

- Basics of HTML, CSS, and JavaScript

- Introduction to frameworks (e.g., React, Angular, Django)

Networking and Security:

- Explanation of computer networks and their types (LAN, WAN, WLAN)

- Introduction to network protocols (TCP/IP, HTTP, FTP)

- Overview of cyber security principles and best practices
