NOTICE FOR NCC CADETS

All NCC Cadets are hereby instructed that this year due to the COVID-19 pandemic.

Tree Plantation activity will be done online on a digital platform on 11/06/20. Due to the ongoing COVID-19 pandemic, it is not feasible to conduct a physical event.

Therefore, as communicated by the Battalion, NCC cadets do tree plantation at home and their nearby vicinities and photographs are to be taken and videos are to be made. For further queries contact me on my mobile and WhatsApp.

**STAY HOME, STAY SAFE!
WEAR MASK.**

Presentation of NCC Activities 2020-21

1. Title of the Activity/Event/Practice

Tree Plantation on the occasion of world environment day

2. Objectives of the Practice

- To conserve the environment.
- To inculcate a sense of responsibility towards environmental protection.
- To make aware people of the vital role of citizens in protecting the environment.

3. The Context

8 Mah Girls Bn gave an activity of tree plantation on the occasion of World Environment Day.

4. The Practice

Trees play a vital role in maintaining the ecological balance of the planet by providing oxygen, absorbing carbon dioxide, regulating the water cycle, and providing habitat for wildlife. Trees play an essential role in soil conservation by preventing soil erosion, retaining moisture, and improving soil fertility. Tree plantation is a crucial activity that can have numerous benefits, including environmental conservation, climate change mitigation, soil conservation, and economic and social development.

Cadets carefully planted saplings ensuring that the roots are spreading in the hole and are covered with soil. They planted saplings in their surroundings keeping in mind the COVID protocols.

5. Outcomes

- Improving air quality: is particularly important during the COVID-19 pandemic as air pollution has been linked to increased susceptibility to respiratory infections.
- To provide habitats for wildlife
- To increase biodiversity.
- To improve water quality trees can help to filter pollutants and improve water quality.
- To engage members of the community through collaborative efforts Tree planting can be a collaborative effort toward a goal
