BROCHURE

The Youth's Journey to Environmental Awareness with the Green Button Journey Project

Encouraging the most important generation of our future to learn about green ways to help our planet by using OERs with creating and implementing channels that the youth will have an easy access to – The Green Button Journey website and app together with our social media accounts.

★★★★★ 1 ocena

THE YOUTH'S JOURNEY TO ENVIRONMENTAL AWARENESS WITH THE GREEN BUTTON JOURNEY PROJECT

ABOUT THE COURSE

Existing, difficult, and late-changing curricula in the current environment of traditional knowledge and teaching are not able to quickly adapt to the requirements of modern society, which importantly limits the participation of young people in solving the issue of a healthy human environment that we will be living in for many future years.

At the same time, it is easier and more credible for young people to present some important life contents about current problems, such as a sustainable environment, if knowledge and experiences are presented to us by peers.

The project is all about the Youth working together – by youth for youth. Together we are learning about environmental sustainability, the impact our actions have on the environment and the change we could make by learning about and implementing green behaviors, focusing on the 13th UNESCO's SDG.

How? Our learning supplies are not the traditional school textbook, pencil, and notebook, because, when you stop to think about it, is the traditional school curriculum on environmental awareness really good enough? Is it making the youth realize how important the theme of environmental awareness is? Is it enough to make us recognize our enormous role in saving our planet for us and for the future generations? The Green Button Journey project aims to make the learning process modern, interesting and – most importantly – fun by encouraging the most important generation of our future to learn about green ways to help our planet by using OERs with creating and implementing channels that the youth will have an easy access to – The Green Button Journey website (<https://green-button.io/>) and app together with our social media accounts.

Mostly the app focuses on enlarging the Green Button Journey Community by bringing in the younger generations with the biggest impact on the planet and the biggest chance and will to save it. The Green Button Journey app consists of links to articles and OER materials that are easily accessible to users, making the learning process easier and consequently more

interesting and fun. The app also has a very inviting feature – friendly competition between the users. App users learn about and complete simple green tasks that can, when multiplied by millions of people, really change the world. By completing these green tasks, users receive green points that get them on the leaderboard that also shows an individual's progress in reducing their CO2 footprint as well as the progress of the whole Green Button Journey Community. To make the experience even more personal and intriguing, in the future the app will work with the support of artificial intelligence, personalizing the app contents to the users based on their experiences, abilities and interests. All in all, the app, with the help of our website and social media, will provide a global spread of environmental awareness in an effective and user-friendly way, without any obstacles, distractions and beating around the bush, since our generation likes to get straight to the point.

The journey is simple and divided into 3 steps – learn, do, and share. Through several communication channels, we will invite young people interested in a sustainable environment to visit the Green Button Journey website for basic information, where they will be able to download an app that will teach them about the issue in a friendly way (learn) and allow them to actively contribute to reducing the CO2 footprint and thus a more sustainable environment (do). Share-it-forward will be our way of Pay-it-forward, where each member of the community will invite their friends and acquaintances and thus spread the acquired knowledge and experience. How? The members of the community recognize each other by sewing green buttons on their clothes, that will also remind them to think and act green as well as raise the curiosity of a passer-by!

COURSE SYLLABUS

SR. NO.	NAME OF THE UNIT
1	INTRODUCTION TO ENVIRONMENTAL AWARENESS
2	UNDERSTANDING ECOSYSTEMS AND BIODIVERSITY
3	THE IMPACT OF HUMAN ACTIVITIES ON THE ENVIRONMENT
4	CLIMATE CHANGE AND GLOBAL WARMING
5	RENEWABLE ENERGY SOURCES
6	SUSTAINABLE LIVING PRACTICES
7	CONSERVATION OF NATURAL RESOURCES
8	WASTE MANAGEMENT AND RECYCLING
9	THE ROLE OF TECHNOLOGY IN ENVIRONMENTAL PROTECTION
10	ENVIRONMENTAL POLICIES AND REGULATIONS
11	COMMUNITY ENGAGEMENT AND ENVIRONMENTAL ADVOCACY
12	THE FUTURE OF ENVIRONMENTAL STEWARDSHIP

SUMMARY REPORT

The course titled "The Youth's Journey to Environmental Awareness with the Green Button Journey Project" encompassed a comprehensive exploration of environmental awareness and sustainability practices. The thematic structure allowed students to understand the interconnectedness of environmental issues and the importance of sustainable living. Below is a summary of the review lectures conducted for each unit. The course facilitator Prof. Mahesh Deshmukh skillfully coordinated the online learning experience, ensuring students gained a comprehensive experience.

The review lectures provided students with a thorough understanding of key environmental themes and practices. Through these sessions, students were encouraged to critically engage with environmental issues and recognize their role in promoting sustainability. The interactive nature of the reviews fostered a deeper appreciation of environmental stewardship and its significance in shaping a sustainable future.

Date of Commencement: 4th November, 2020

Date of Completion: 21st January, 2021

Course Duration – 45 Hours

Course Mode: Online + Self-Paced

No. of students enrolled: 866

No. of students completed the course: 849
